

CAMPBELL'S POOL & SPA

pool safety features

Manual Safety Covers

An impenetrable covering that completely covers the pool, spa, or hot tub, blocking access to water.

types:

Meets ASTM F1346 Standard

Door Exit Alarms

Warns parent or guardian when a child opens the door.

types:

- Door announcer/chime
- Home security system

Self-closing/self-latching devices for doors and latching devices for windows

Keeps all doors and windows leading to the pool, spa, or hot tub area securely closed, limiting access by children.

types:

- Hinge pin replacement
- Sliding glass door closer
- Swing arm

Fence Gate Closer & Latch

To close and latch fence gates securely, making a pool, spa, or hot tub inaccessible to a child.

types:

Self-latching

Fence Gate Alarms

Sounds when fence gate is open. Infrared Detectors/Wireless detection alarm that sounds when the area around the pool perimeter is entered.

types:

- Light-beam
- Body energy

Pool Alarms

An alarm placed in the pool that sounds upon detection of accidental or unauthorized entrance into the water.

types:

- Surface water (wave motion)
- Pressure waves (acoustic)
- Electronic monitoring system

Child Alarms

An alarm clipped on the child that sounds when the child exceeds a certain distance or becomes submerged in water.

types:

Clip-on transmitter with in-home receiver Rope & Float Line A rope & float line should be placed across the pool, alerting swimmers to the separation of the deep end from the shallow end of the pool.

Fencing

To isolate the swimming pool by way of a minimum four-foot-high enclosure/To temporarily isolate a pool, spa, or hot tub when children are visiting.

types:

- Chain link
- Wooden picket (if non-climbable)
- Ornamental
- Portable fencing*
- Natural barrier (thick hedge), if permitted by local code

Life Ring, Shepherd's Hook

All rescue equipment should be placed near the pool in an easily accessible spot, and should be kept in good condition. These can be used to pull someone in trouble to safety.

types:

NA

Posted Emergency Information

Post all CPR, other emergency information, and warning signs, as well as the emergency phone number "911" (or other emergency medical service number), near the pool, spa, or hot tub.

types:

NA

Outside Telephone

A cordless or poolside telephone means parents don't have to leave children unattended while they answer the phone. Also, it's a good idea to have one handy to summon help, if needed.

types:

NA

Anti-Entrapment Drain Covers and Fittings

Current grates and covers help prevent body or hair entrapment. Make sure that drain covers meet the ANSI/ASME A112.19.8M standard. Safety doors should be installed in all pool cleaner wall suction lines. Pools, spas, or hot tubs with drain covers that are broken, missing, or not adequately secured should not be used until the proper replacement has been installed. Never allow children to play on or near drains, suction outlets, or jets.

types:

NA

Water Clarity

Clear water aids in identifying soakers and swimmers in distress, helps swimmers avoid collisions and is an indicator that the sanitizer, circulation, and filtration systems are functioning. Poor water clarity suggests the presence of bacteria and/or algae or nutrients for their growth, and that the circulation and filtration systems may not be working efficiently to remove the contaminants from the water.
